

High Value Inventory Worksheet

When you move, some items (like electronics, heirlooms, jewelry, mattresses, automotive parts, etc) are more important to you than others. Use this sheet to document these items before the movers arrive.

How to use this sheet:

1. Before the packers come, **document any high value items or items of significant importance on this sheet.** (Use multiple pages if you have too!) While you are doing this, we recommend taking photos or videos of the items' current condition.

2. On Moving Day, **verify that ALL of the information on this sheet is on the moving company's inventory sheet BEFORE you sign their copy.** (The moving company's copy is the *official inventory*. It will be more difficult to get full-replacement value for damaged/lost items if all the details aren't on their copy.)
